

सीएसई: द्वितीय वर्ष / तृतीय सेमेस्टर CSE: II Year / III Semester
सत्र/Session: जुलाई – दिसंबर 2026/ July – December 2026
विषय/Subject: Data Structures LAB(CSE 2105)

Instructions to Students

Note: Marks will be awarded based on the correctness of the program, successful execution, proper documentation, attendance, and the overall presentation of the laboratory record.

1. Submit the laboratory record in a hard-bound file.
2. For each program, include the following in the given order:
 - Objective (Question/Aim)
 - Source Code (C Program)
 - Complexity
 - Sample Input
 - Expected Output (with an example)
 - Assumptions, if any, made while solving the problem.
3. Execute every program and attach the actual machine output (program output) obtained after execution. Do not submit only the expected output.
4. For verification purposes, the machine output must clearly display your Name and Registration Number.
5. Ensure that all programs are properly formatted, properly indented, and commented wherever necessary.
6. Arrange all programs sequentially as per the laboratory manual.
7. The submitted work must be your own. Any instance of plagiarism or copied work will be dealt with according to the institute's academic regulations.
8. The laboratory file must be presented to the Lab Instructor for regular verification and progress checks during the laboratory sessions. Students are expected to maintain the laboratory record up to date and obtain periodic verification throughout the semester.
